VERSION CONTENTS REPORT

VERSION :	2.1.1.1		RELEASED :	19/03/2020

REF	MODULE	DESCRIPTION	TYPE	COUNTRIES
ACU-18289	Benefits	There was an error message "170001 Field calcPractitionerName cannot be used in a filter expression" that appeared in the 'Benefit Tracking' module when the user filtered the claim grid by practitioner.	Bug	All
ACU-14802	Diary / Scheduler	A new configuration option "Patient"/"Sync Visit & Appt Motivations" has been implemented, which allows the application to sync any changes made to the motivation on the visit record to the motivation of the appointment record, as long as the appointment and visit date match.	Enhancement	All
ACU-12488	Dispensing	When a dispense order with the order type 'Order Later' was processed within the dispense fulfilment screen, if the delivery address had been set to the patient and there was a previously placed order for a different patient; this address information would override the previously placed order address information as this patient order is not yet created due to the order type being set to 'Order Later'.	Bug	All
ACU-17074	Dispensing	The content of the 'Special Instructions' field was misaligned in the A4 format of the 'Spectacle Dispense' report.	Bug	All
ACU-18349	Dispensing	Within the new dispense screen, the total amount panel was reduced in size due to 'Audiology' being turned on.	Bug	All
ACU-12830	Equipment	A link to the Visionix Eyerefract phoropter has been implemented into the 'Subjective' and 'Rx Given' pages in both the 'Refraction' and (US and Canada only) 'Combined Exams' page.	Enhancement	All
ACU-17404	Equipment	A link to the Essilor VisionR-800 was added to 'External System' and 'Refraction'.	Enhancement	All
ACU-12355	Examinations	When 'Get Data' button was pressed from a clinical exam, 'K Readings' data was not being populated.	Bug	All
ACU-14805	Imaging	When rotating scanned images in edit mode, the application was not saving the changes.	Enhancement	All
ACU-16564	Imaging	The drag and drop functionality for importing new images through the Imaging screen has been improved to work consistently.	Bug	All
ACU-18368	Insurance	(Canada Only) A new configuration option has been introduced which will control whether the insurance identifiers (e.g. SIN or MSP) are automatically updated on the patient record, after they have been changed on the patient insurance screen.	Enhancement	All
ACU-18369	Insurance	(Canada Only) A new configuration option has been added to allow users to control whether the insurance or claim information is displayed when they enter the 'Patient Insurance' screen.	Enhancement	All
ACU-18410	Insurance	(Canada Only) On the patient insurance screen the insured reference value was not set correctly following a refresh from the patient record.	Bug	All
ACU-16887	Patients	The status bar indicator on the bottom right of the Acuitas main screen which signified the presence of a patient signature, recorded as consent for various purposes, was not displaying correctly.	Bug	All

VERSION CONTENTS REPORT

VERSION :	2.1.1.1		RELEASED :	19/03/2020

REF	MODULE	DESCRIPTION	TYPE	COUNTRIES
ACU-17465	Refraction	Acuitas now supports multiple types of 'Final Prescriptions' and high precision values (in the 0.01 range), in the 'Sphere', 'Cylinder' and 'Add' fields under the 'Refraction' and 'Dispense' screens. This also introduces the concept of a 'Primary Prescription' that the user can select from those multiple prescriptions and other related changes to the user interface from those screens. This has been brought forward for the Essilor Vision-R 800 phoropter link.	Bug	All
ACU-17764	Visits	In the non-clinical version of the system, visits were being created incorrectly and recalls have been disappearing from the patient file for patients when the user was dispensing a new sale or creating GOS forms.	Bug	All
